SUMMARY

Results-driven and seasoned front-end developer with a fervor for crafting visually striking and user-centric web applications. Proficient in Javascript, HTML, CSS, and React framework, with a focus on optimizing load times and ensuring responsive designs.

Demonstrated success in collaborating seamlessly with cross-functional teams, showcasing effective communication and teamwork. Excited to contribute my skills and experience to a front-end developer role, bringing a track record of delivering high-quality and engaging user experiences.

EXPERIENCE

Frontend Engineer   09/2021 - Present
Chaara ↗

Spearheaded the successful development and implementation of innovative user interface designs for over 7 major projects at Chaara Company, resulting in a significant enhancement of overall user experience and satisfaction.

Played a pivotal role as the Senior Frontend Engineer in leading cross-functional teams, fostering collaboration between design, backend development, and QA teams to ensure seamless integration of frontend components with backend systems.

Implemented cutting-edge technologies and best practices to optimize website performance, resulting in a 20% reduction in page load times and an improved overall site responsiveness.

Demonstrated exceptional problem-solving skills by efficiently identifying and resolving complex frontend issues, contributing to a 30% decrease in post-release bug reports across multiple projects.

Actively participated in the code review process, providing constructive feedback to team members and mentoring junior developers, resulting in the continuous improvement of code quality and adherence to coding standards.

Successfully integrated responsive design principles, ensuring a consistent and visually appealing user interface across various devices and screen sizes, leading to a 25% increase in mobile user engagement.

Collaborated with product managers and stakeholders to gather and refine project requirements, translating business needs into technical specifications, and delivering high-quality, user-centric solutions on time and within budget.

Implemented and maintained a robust and scalable frontend architecture, facilitating easier future development and reducing technical debt across projects.

Freelance Frontend Developer   03/2020 - Present
Fiverr

Accomplished frontend developer with a proven track record in successfully delivering numerous projects using cutting-edge technologies such as React, Tailwind CSS, and JavaScript. Demonstrated expertise in seamlessly integrating frontend solutions with backend systems.

Collaborated closely with clients to grasp their requirements, ensuring the delivery of tailored solutions that meet and exceed expectations. Notable projects include creating and maintaining the website ingzli.com, designing and developing the interactive dashboard for dashboard.com, and crafting and managing the personal portfolio website nabowy.online.

Adept in UI/UX design principles and committed to meeting web accessibility standards, I bring a keen attention to detail and consistently deliver high-quality work even under tight deadlines.

EDUCATION

CS Engineering   06/2021 - Present
AUC University

Majoring in Computer Science, I have gained a strong Foundation in programming concepts and algorithms, as well as

Experience with various Programming

Languages such as Javascript

SKILLS

Javascript	Canvas
React	tailwindcss.
Rest api	Bootstrap
Data structure	CSS
Algorithms	HTML

LANGUAGES

English	Intermediate	Arabic	Native
